

### REMARKS

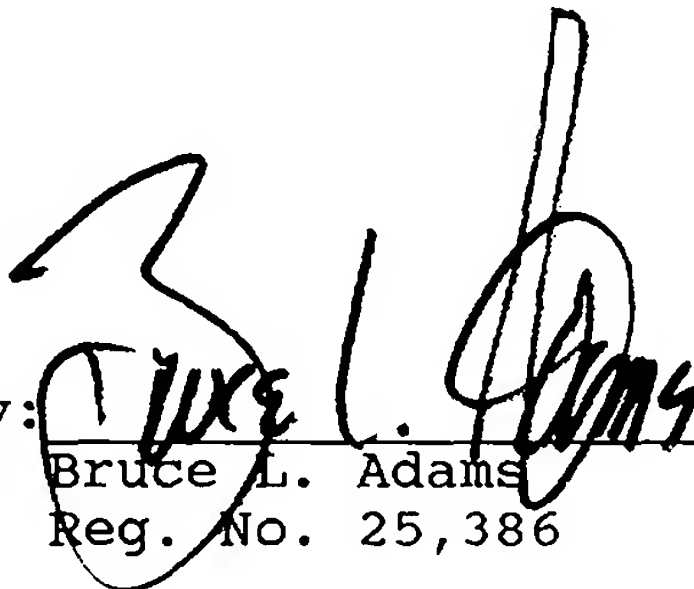

This supplemental response is being filed in further response to the Office Action dated June 4, 2003 for the purpose of adding new dependent claims 17 - 20. The newly added claims further define the structure of the wearable body set forth in claim 1 by reciting that the wearable body has no coating in the portion where the chip antenna is provided, or has a coating formed of a ceramic, an acrylic glass, or another material that does not have a signal shielding effect.

Applicants respectfully submit that the cited references to Houlihan, Gloton and Liebendoerfer fail to disclose or suggest the subject matter recited by claims 17-20.

In view of the foregoing amendments and discussion,  
the application is now believed to be in condition for  
allowance. Accordingly, favorable reconsideration and  
allowance of the claims are most respectfully requested.

Respectfully submitted,

ADAMS & WILKS  
Attorneys for Applicants
